Attendance sheet was sent around.

Accidents/Incidents
Paula Jones, SAIF Corporation, presented the committee with a claims summary. To date there have been 13 claims since the beginning of the policy year (July 1, 2016). There were 20 reported incidents this time last year. Nature of accidents/incidents: 4 strains, 3 lacerations, 2 sprains, 2 contusions/bruises, 1 infection, 1 other.

Safety Training
The Committee watched a video, ‘Safety Doesn’t Happen By Magic, Fifth Dimension’s Ivor and Jeff’. Following the video, Committee members participated in a group discussion. An important message that many took away from the video was the following quote: ‘The best way to predict the future is to create it.’ Meaning we should all be proactive when it comes to safety, and prevent accidents before they can happen.

Flyers were handed out on the following topics. Committee members were to take back to their buildings and share with staff:

- Tips to alleviate stress. Stress can increase your risk of having accidents at work.
- Train Your Brain. Techniques to improve performance, focus and memory.
- Solar Eclipse (August 21, 2017). Increases in traffic and a strain on public safety services may occur.

Safety Related Issues
Safety walk throughs need to be documented and turned in.

Playground Safety Inspection Reports need to be turned in monthly. The forms can be found online under ‘Departments’, ‘Health & Safety’.

Safety Suggestions
No safety suggestions were turned in.

Next Meeting: Thursday, March 16, 2017, at 8:00 am, Maintenance/Transportation Facility, 14551 Myers Road, Oregon City.
