Introductions
Sabrina Freewin, SAIF - presentation

Accidents and Incidents
• Looking GREAT! Gail reviewed the reports:
• March - no 801s so far this year
• YTD - only have ½ the amount of injuries at this time last year
• Data is the same as last month.
• Slips, trips and falls are way down from last year.
• Mod rate is going up next year.
• No issues regarding safety concerns were brought up.
• Wes brought up the idea of putting together a power outage kit for each school. Something to get through the first hour or so. Outlining procedures, lights, concerns about the EPPT not being used.
• Sharps disposal, when are they disposed of and how are they contained over the summer.
• Please keep an eye out for high water or water issues
• Also rodents are coming back. Please check for any population concerns.
• Track at Stadium is getting bad, it is bubbling up and loosing surface in lane 3.
• Bark chip areas at many of the elementary schools are flooded. Wes explained that we have hit the budget threshold for improving drainage. If you are in need of bark chips please call.

**Presentation from Sabrina**
Key elements in a safety program are: Leadership, Environment and Policies. She added culture.

How to make lasting behavior changes:
• Make the things you want people to do easier to do
• Make the things you don’t want people to do harder to do
• Make it the social norm (culture)
• Support people during change (reinforce and support)

**Next meeting May 18, 2017 - 8am at T&M Facility**
