DATE: May 23, 2022  
TO: Members of the Budget Committee  
FROM: Kyle Laier, Interim Superintendent  
SUBJECT: Budget Message

This message transmits to the Budget Committee the administration's recommended budget for the Oregon City Public Schools for the fiscal year 2022-23. It contains revenue and expenditure recommendations to fund educational and support programs for the period of July 1, 2022 through June 30, 2023, and is prepared under a modified accrual basis of accounting.

### ***Budget Development Process***

The 2022-23 budget development process has been guided by the goal of reducing academic programs and supports to a service level aligned with the decline in enrollment experienced during 2020-21 and 2021-22 school years. The budget presented here is based upon an \$9.3 billion state funding level for the 2021-23 biennium. The amount projected to be allocated in the most recent State School Fund estimate provided by ODE from February 24, 2022 adjusted to floor funding for the school district is currently projected at \$79,837,098 versus \$78,785,195 for 2021-22. The superintendent's proposal is built on \$82,201,691 to provide spending authority if enrollment and revenues increase in the fall of 2022. The additional \$2,364,593 in the proposed budget will not be allocated by the Chief Financial Officer for expenditures unless additional revenues are realized through an increase in student enrollment.

In anticipation of the upcoming 2022-23 budget, the School Board, joined by the community members of the Budget Committee, held its first budget work session in December 2021. The agenda included a preliminary revenue forecast. At this point the District was aware of the potential negative financial impact of declining enrollment on the 2021-2022 and 2022-2023 budgets. Enrollment updates were provided to the school board and public during regular sessions in October, November, February, April, and May.

Enrollment is crucial for determining district state school funding. The State School Fund is the main source of revenue that resides in the district's General Fund for standard student instruction, programs, and overall operations. During the 2021-22 school year, the district maintained staffing, services, and operations at pre-pandemic levels through the use of federal funds in the form of the Elementary and Secondary Emergency Relief Funding (ESSER). This funding is restricted for specific usage to compensate districts for equipment and staffing costs incurred for operations during the COVID pandemic and to implement and/or expand existing programs to compensate for student learning loss. The district's approach was used to meet state and local health requirements related to COVID and allowed the district to better serve students through additional staffing after returning from a year of Comprehensive Distance Learning and Hybrid instruction as an accommodation for potential learning loss. The district has experienced a drop in enrollment of 12% since 2016-17 as shown in the Portland State Enrollment History report (figure 5).

1. Enrollment impacted by COVID-19 pandemic.

2. Does not include Alliance Academy or Springwater

Source: Oregon City School District, September 30 quarterly report information.

The district decline in enrollment represented in a comparison of the ODE District Estimate Reports from June 2021 and March 2022 show a decline of 8.2%, or a loss of 779.5 ADMw, while the state experienced a 3.4% decline over that same period. For the district to

experience an increase in revenue with increased enrollment, the district would likely need to see an increase at a greater rate than the overall state enrollment.

### ***Building the Budget***

To balance the budget, General Fund expenditures have been reduced to align service levels with current enrollment projections. School and department discretionary funds have been reduced by approximately \$750,000. In the table below, planned staff reductions align service levels with current enrollment projections.

	Beginning FTE	Budget Reductions					Additions	Budgeted FTE
		General Fund	CL/JL	Other Funds	Total Reductions (Floor)	%		
Licensed	460.185	31.000	1.000	16.300	48.300	10.5%	14.000	425.885
Classified	390.485	7.313	1.600	6.375	15.288	3.9%	7.000	382.197
Admin/Supervisor	48.000	4.500		2.500	7.000	14.6%	2.000	43.000
	898.670	42.813	2.600	25.175	70.588	7.9%	23.000	851.082

Additionally, the planned Math Adoption expenditure has been delayed saving the district \$1,500,000 in the 2022-23 fiscal year. This reduction may impact future adoption cycles.

### ***Resources***

Using the state school fund appropriation of \$9.3 billion for the biennium, the district's total general fund resources for 2022-2023 are expected to be \$95.43 million versus \$95.74 million budgeted for 2021-2022. This decrease does not support our current staffing levels and will require a reduction in staffing and discretionary expenditures. The district expects much of the staffing expenditures to be reduced through attrition.

The revenues for the Student Investment Account (SIA) including carryover are projected to be \$6,166,902. The projected carryover for ESSER III to be expended in the 2022-2023 fiscal year is approximately \$2,600,000. The revenues for the High School Success grant included carryover are projected to be \$2,190,060.

### ***Expenditures***

The 2022-23 budget reflects \$95,433,745 million in budgeted expenditures. This includes an ending fund balance of \$3.47 million and a contingency of \$800,000 which brings budgeted expenses up to balance out revenue received as required by the Oregon Department of Revenue. This year's budget includes employee contractual step increases in salary schedules negotiated to date.

### ***Fund Balance***

School Board policy calls for maintaining an ending fund balance of a minimum of 5 percent of the total budgeted resources. The 2021-22 budget was approved to have an ending fund

balance of 3.6% or \$3.47 million. Through reduced expenditures through the 2021-22 school year, the district is predicting an ending fund balance of 4.77% or 4.29 million (The ending fund balance then becomes the beginning fund balance for the next year.)

For 2022-23, the projected ending fund balance with the above modifications is \$3.43 million or 3.6% of budgeted resources. This is derived from anticipated spending trends. Additionally, any unanticipated, one time revenue adjustments or expense adjustments will change the projected 2022-23 ending fund balance. The ending fund balance and contingency combined total \$4.24 million or 4.44% of budgeted resources.

### ***Looking Forward***

A budget is a plan built on forecasts, estimates, and assumptions. The budget the Board adopts may undergo revisions while maintaining core academic programs and supports.

The district business office personnel are responsible for bringing all requests and suggestions for expenditures into focus and developing a proposed budget for the Board of Education and the Budget Committee. A public hearing for budget adoption is scheduled on Monday, June 27, 2022, at 6:00 p.m. in the District's Board Room (Jackson Campus, 1306 Twelfth Street, Oregon City, OR 97045).

We continue to support our staff in their work to help students achieve with all of the available resources that we have. We sincerely thank our employees for all of the personal sacrifices that they have made through the pandemic in order to continue working to support student achievement. We are diligent and careful stewards of the public resources entrusted to the District by always striving for new efficiencies and seeking new pathways for sustainability.

As we move toward approving a budget for the 2022-23 school year, we want our Board, our community and state citizens to know that we are devoted to achieving our mission and vision to prepare all students for college and career.

Respectfully,

Kyle Laier

To support student achievement, the District prepares Oregon City students for college and careers. The District aligns with the Oregon State Plan and the US Department of Education which includes the following commitments:

- A. Advancing Equity
- B. Promotion of a Well-Rounded Education
- C. Strengthening District Systems
- D. Fostering Ongoing Engagement

To meet these commitments, Congress passed the Every Student Succeeds Act in 2015.

#### **Every Student Succeeds Act - ESSA**

This act changed the oversight of schools from the federal level to the state level. Under ESSA, Oregon was required to make decisions about how to rate schools, how to evaluate their teachers and how to assist poorly performing schools. ESSA requires states to:

- Adopt new academic content standards that align to higher education requirements and to career and technical education (CTE) expectations
- Administer annual assessment tests for students in reading, mathematics and science
- Ensure 95 percent student test participation and allows states to create their own testing opt-outs
- Establish achievement goals for students
- Create an accountability system that is meaningful to measure school performance
- Use the accountability system to identify schools in need of comprehensive support
- Provide the support needed for the schools that are identified
- Implement plans to ensure equitable access of supports for teachers, students living in poverty and students of color

#### **State Adopts New Funding for Educational Priorities**

The state adopted and expanded funding priorities for K-12 education for the 2021-23 biennium. See below:

- **Student Investment Account**
  - ✓ \$892.2 million (fully funded)
- **Statewide Education Initiatives Account** - key highlights are:
  - ✓ \$311 million (fully funded) - High School Success/Measure 98
  - ✓ \$22 million - Statewide Student Success Plans that serve African American/Black students, American Indian/Alaska Native students, Latino/a/x students, and LGBTQ2SIA+ students.
  - ✓ \$41.1 million - Funding for ESDs to support SSA Implementation
- **Early Learning Account** - key highlights are:
  - ✓ \$43.9 million - Preschool Promise Program (2,516 slots)
  - ✓ \$17.4 million - Oregon Prekindergarten (1,400 slots)
  - ✓ \$5.8 million - Oregon Prekindergarten to age 3 (265 slots)
  - ✓ \$3 million - Early Learning Equity Fund
  - ✓ \$2 million - Relief Nurseries
- **Summer School Funding**
  - ✓ \$71.9 million

## **Federal Funding Available**

The Federal Government awarded \$13.2 billion to the Elementary and Secondary School Emergency Relief Fund (ESSER Fund) for aid to mitigate the effects of the Corona Virus to education. Oregon is receiving \$121.1 million of which \$108.9 million is to be distributed to local school districts based on the portion of federal funding awarded through Title I A. Funding began in March of 2020 and ends in September 2024.

## **Smarter Balanced Assessment**

Oregon's Academic Content Standards define the knowledge and skills students should have developed in their K-12 education so that they will graduate from high school ready to succeed in entry-level, credit bearing academic college courses and in workforce training programs. They are currently used to meet the requirements of the new state standards for ESSA. To measure whether students are meeting the state standards, the state is currently using the Smarter Balanced Assessment Tests. It is utilized throughout a school year to provide student data that will inform instruction, guide interventions, help to target professional development and to ensure an accurate measure of each student's progress toward career-and-college readiness.

Detail of the most current District's Priorities and Goals to support the District's Mission and Vision may be viewed on the next page.

## PROFILE OF THE DISTRICT

The District is one of 10 public school districts located in Clackamas County, Oregon. It is the sixteenth largest school district in Oregon, and the third largest in the county providing a program of public education from kindergarten through grade twelve. Clackamas County is located just to the south and east of the city of Portland and, together with Multnomah, Washington, Columbia, and Yamhill counties, is considered part of the Portland Metropolitan Statistical Area.

In 1872, Oregon's legislature passed a law giving county school superintendents authorization to establish school districts. In November 1874, then County School Superintendent, W. W. Moreland established district number sixty-two now known as Oregon City School District No. 62. It is the oldest "district" in the county, but it is not recognized as such because its schools were under city control for many years until 1874. The District consists of 6 elementary schools, 2 middle schools, 1 high school, and 4 District sponsored charter schools that are located within its boundaries. One of the charter schools is a high school – Oregon City Service Learning Academy (OCSLA). Clackamas Academy of Industrial Sciences (CAIS) operates as a middle school and a high school. These charter schools operate under the direction of district administration and are staffed by District employees. The two other charter schools are independently operated. Springwater environmental Sciences School (SESS) is a kindergarten through 8th grade school and the Alliance Charter Academy (ACA) is a grade K-12 charter school. No District employees work at these schools; however, the District is legally required to provide special education programs and support that meet state and federal requirements to their students.

Under Oregon law, the District is considered a financially independent, special-purpose municipal corporation, and is responsible for educating children residing within the boundaries of the District. The District discharges this responsibility by building, operating, and maintaining school facilities; developing and maintaining approved educational programs and courses of study, including vocational programs and programs for handicapped students, in accordance with State standards; and carrying out programs for transportation and feeding of pupils in accordance with District, State, and Federal guidelines.

The District's Governing Board, the Oregon City School Board is organized under Section 332 of the Oregon Revised Statutes. The Oregon City District School Board is elected on a District-Wide basis and is the governing body of the District. It is comprised of seven citizens and has oversight responsibility and control over all activities related to the District which include but are not limited to the hiring of the Superintendent, the adoption of the annual budget, and negotiations of collective bargaining agreements. The Board sets Board Governance Policies and collaborates with staff to craft District policies which establish practical, ethical and legal boundaries for district staff and decision-making. A Budget Committee consisting of seven appointed volunteer members established by statute advise the Board on budgetary issues.

## THE SCHOOLS

On the following page is a listing of the District's K-12 Schools, their location and their 2021-22 ADM. The District is required to report the number of students per school year to the state based on Average Daily Membership (ADM). ADM is the average number of full-time students enrolled in District schools and programs every day over the course of the entire school year compared to student enrollment which would be a snapshot on a given day of the headcount of all students enrolled. The District's ADM was 7,188 students for fiscal 2021-22. The projected ADM for the 2021-22 budget is 7,809. Note that the Oregon Department of Education remits state school funding to the District based on the higher of Weighted Average Daily Membership (ADMw) of the prior year or the current year.

## STAFF

The quality of the District's educational program is largely dependent upon the quality of its greatest resource-its employees. Payroll and associated payroll costs exceed 60% of the General Fund Budget.

Oregon City staff members are categorized as Licensed, Classified, Confidential and Administrative. Licensed staff members are generally teachers who possess a state license or credential. Classified staff functions in support roles both in the classroom and, in some cases, supervisory positions. Confidential employees perform high level tasks in support roles with little supervision. Sometimes their work may be "termed" confidential if they are working with the District's employee associations. Administrators are considered school based supervisors (such as Principals) or District-wide supervisors. View the definitions and percentage of budget staff for 2021-22 below. The percentages are based on budgeted (FTE) full time equivalents.

### **Licensed Staff: (50%)**

Licensed staff consists of teachers, special education specialists and counselors. The District's Department of Human Resources ensures that all teachers employed with the District meet the requirements of the Oregon Teachers Standards and Practices Commission (TSPC). The department maintains documentation of each teacher's status and funds professional development and tuition for teachers that wish to earn credits for higher level degrees such as a Master's Degree.

### **Classified and Confidential Staff: (45%)**

Classified Staff consist of instructional assistants, custodians, bus drivers and clerical staff.

### **School-Based Administrators: (2.7%)**

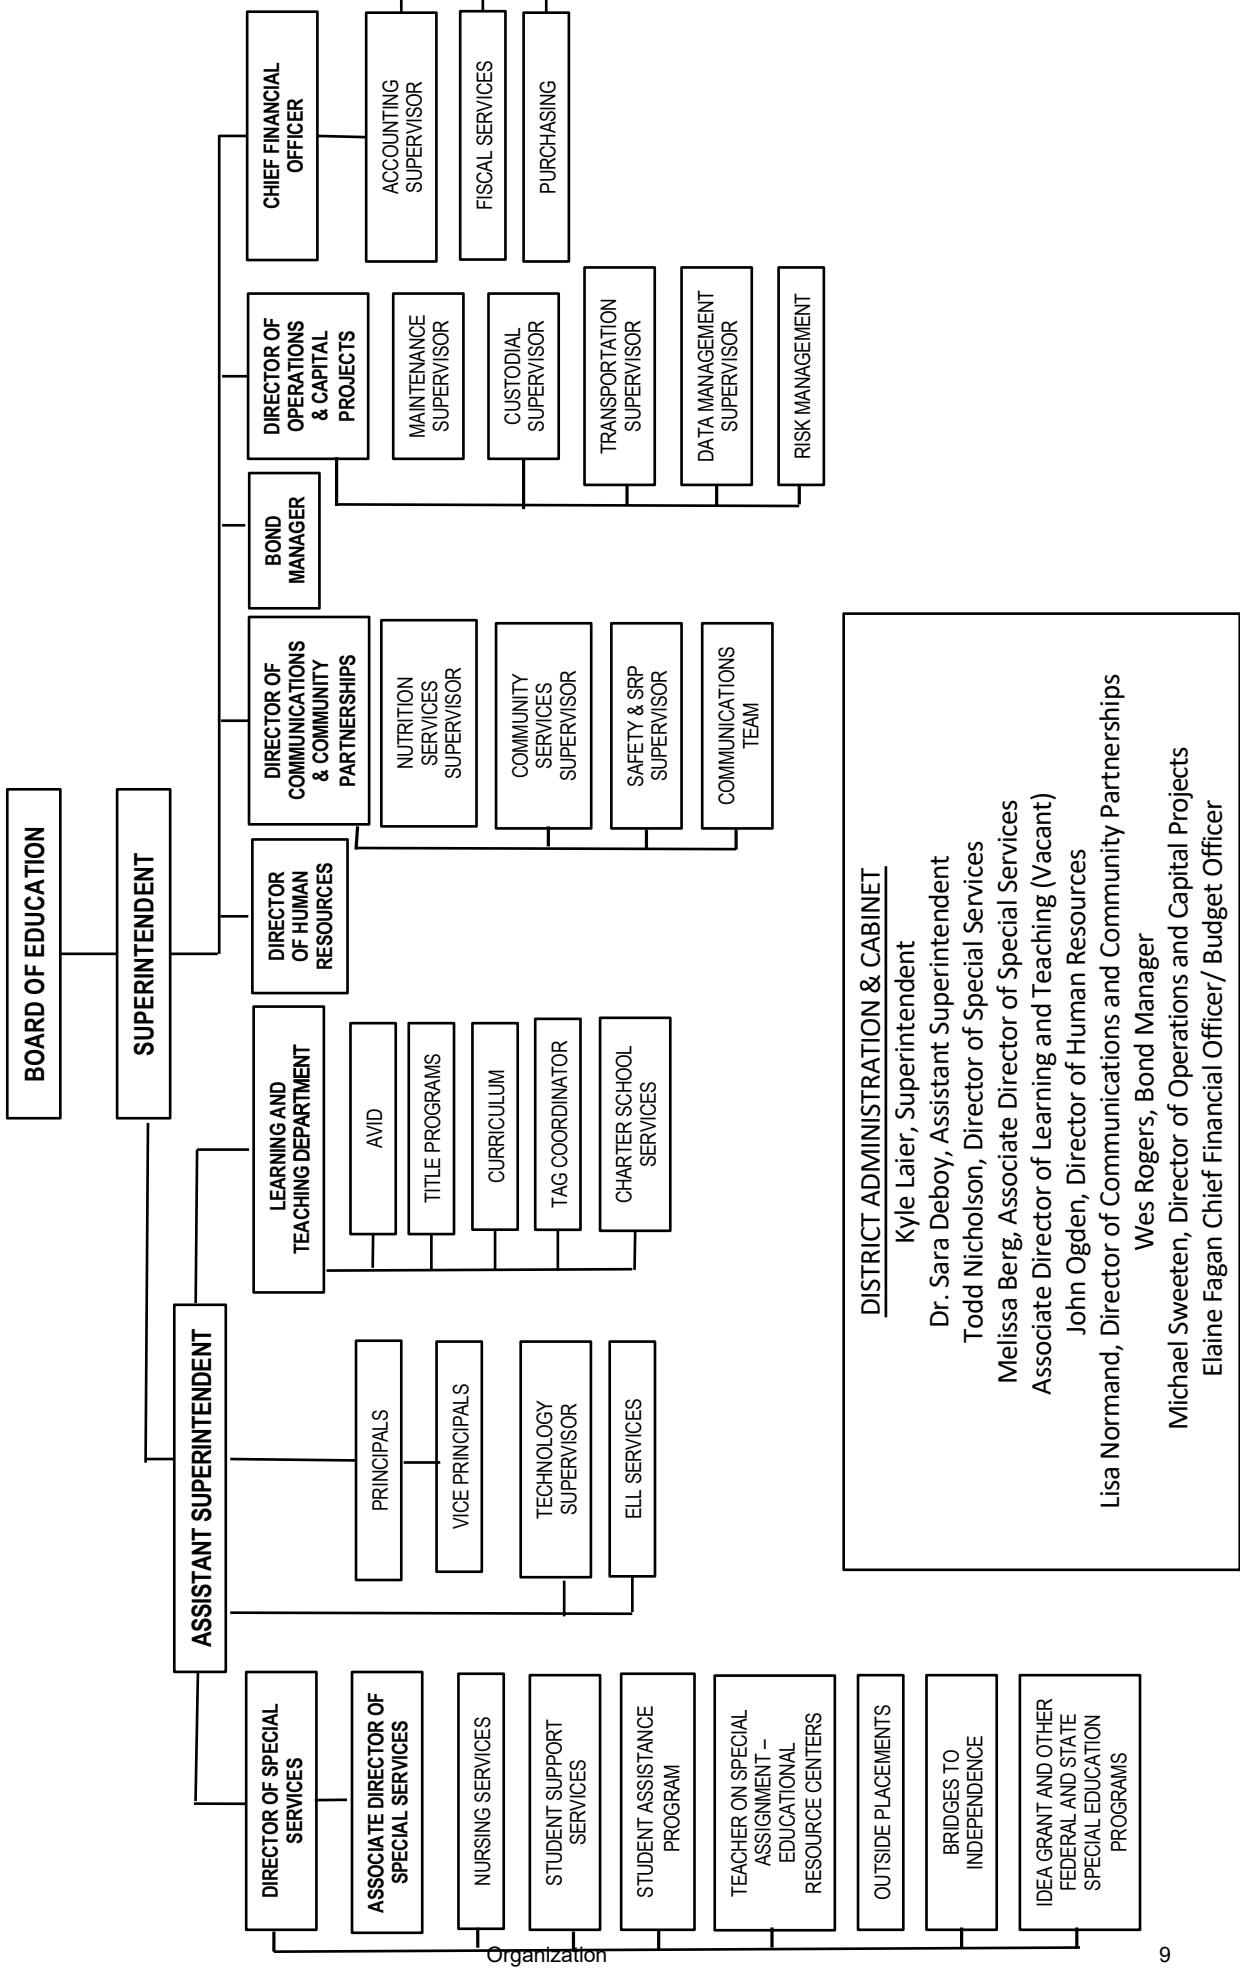

These are principals, assistant principals and athletic directors.

### **District-wide Administrators: (2.3%)**

District-wide supervisors consist of Cabinet-level directors and supervisors for the departments such as Special Education, the Bond Office, Transportation, Custodial, Maintenance, Human Resources, Fiscal and Technology.

## LEGAL STATUS

Oregon City School District No. 62 is a municipal corporation (Oregon Revised Statute 294) governed by a separately elected seven-member Board of Directors. The Board is comprised of seven elected citizens, each residing in a District zone, but elected on a District-wide basis. Board members serve four-year terms, which are staggered so that no more than four members are elected in a given year. For more information on the Oregon City School Board, please see the District website at [ocsd62.org](http://ocsd62.org). Administrative officials are approved by the Board. The control of the District resides with the Board, which establishes policy and delegates the daily functioning of the District to the Superintendent.

## FISCAL INDEPENDENCE

Oregon City School District qualifies as a primary government under Oregon Statutes since it has a separately elected governing body, and is a legally separate and fiscally independent. While the Oregon Department of Education reviews the District's budgets and financial reports, the District monitors and audits its own day-to-day transactions.

## FINANCIAL AND BUDGETARY ACCOUNTING

The District is required by Oregon Statute to submit yearly audited financial statements. In the audited financial statements, the District presents both Government-Wide Financial Statements as well as Governmental Fund Financial Statements. Government-wide financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flow takes place. On the accrual basis of accounting, for example revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt and claims and judgments, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures (capital outlay), and proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources. Capital outlay expenditures are budgeted by major function in the governmental fund types.

The District's budget is prepared utilizing the governmental fund financial reporting method: the modified accrual basis of accounting. The district budgets its district staffed charter schools (OCSLA and CAIS) as Agency Funds. They are included in the "700 Funds – Trust and Agency Fund Requirements". The resolution authorizing appropriations for each fund set the level by which expenditures cannot legally exceed appropriations.

## BUDGET POLICIES, PROCEDURES AND REGULATIONS

Most local governments in Oregon must prepare and adopt a budget. Only districts specifically exempted by law do not have to prepare and adopt a budget. Local Budget Law is found in the Oregon Revised Statute chapter 294. The budget must be completed by June 30<sup>th</sup>, the day before the start of the fiscal year or biennial budget period to which it relates. The Oregon Legislature identified the purposes of local budget law in the Statute. It is designed to:

- Establish standard procedures for preparing, presenting, and administering the budgets of Oregon's local governments,
- Encourage citizen involvement in the preparation of the budget before its final adoption,
- Provide a method of estimating revenues, expenditures, and proposed taxes, and
- Institute a method for control of revenues and expenditures for the promotion of efficiency and economy in the expenditure of public funds.

Many of the requirements in the law are designed to encourage citizen involvement. An overriding theme in the law is that public policy decisions are to be made openly in a public meeting. Citizens have the right to attend and to know what their local government intends to do, before it happens. The law requires that all local governments use uniform formats prescribed by the Department of Revenue in the preparation of their budget. This provides for consistency and ease of comparison between governmental entities. There are many procedural steps in the development and final adoption of the annual budget.

The following are the primary steps for budget preparation by local governments:

1. The governmental entity prepares a proposed budget.
2. Notice of the budget committee meeting is published.
3. The budget document is made available at or before the budget committee meeting at which the budget is presented.
4. The budget committee conducts at least one public meeting for receiving the budget message and review of the budget document as well as providing opportunity for public questions or comments.
5. The budget committee approves the budget.
6. Notice of the public hearing and a summary of the approved budget are published.
7. The governing body conducts a public hearing on the approved budget.
8. The governing body, after public comment and deliberations, adopts the budget and enacts resolutions or ordinances accordingly by June 30.
9. The governing body certifies the District's tax, if any, to the county assessor by July 15.

For our School District, the adopted budget represents the financial plan for the District. It contains estimates of revenues and expenditures needed to support the program offerings of the District for a single fiscal year. **It is required to be formatted in the manner prescribed by local budget law and the Oregon Department of Education's *Program Budget and Accounting Manual*.** The budget does change throughout the year as revenue amounts change and funds are transferred between various accounts to meet the needs of District instructional programs and services. Transfers are made in accordance with policy relating to appropriation and budget transfers to ensure compliance with Local Budget Law (ORS 294.305 through ORS 294.565).

The School Board can make any changes, if deemed necessary, to the approved budget before July 1.

- They can increase expenditures of any fund up to 10% or \$5,000, whichever is greater.
- Increases greater than this can be made only after the amended budget is republished and a second hearing is held before July 1.
- The governing body can reduce expenditures without republishing the budget.
- They can increase the amount or rate of taxes to be imposed above what the Budget Committee approved after the amended budget is republished and a second hearing is held. They cannot increase taxes above legal limits.
- They can reduce the tax rate or amount approved by the budget committee without republishing the budget.
- They can adjust resources in each fund if additional resources are available after approval by the Budget Committee.

**Republication** means that the budget, as amended with changes the governing body wants to make, is published in the same manner as the approved budget was originally published. The budget must be amended to reflect changes and a notice and summary must be published in the newspaper again.

**Another public hearing must be held** to deliberate on the budget approved by the Budget Committee and to consider any additional public comments. The budget does not have to be adopted at the public hearing if the School Board wants to wait until closer to the end of the fiscal year. However, the required resolutions, etc. must be adopted at public meeting of the School Board by June 30.

**After the budget is adopted**, changes can be made during the fiscal year that modifies the adopted budget. The legal definition and process for enacting a supplemental budget can be found in OAR 150-294-550. A supplemental budget may be prepared when:

- An occurrence or condition that was not known at the time the adopted budget was prepared requires a change in financial planning or requires prompt action
- Money that was not anticipated when the adopted budget was prepared is made available by another unit or federal, state or local government
- A request for services or facilities is received, the cost of which will be paid for by a private individual, corporation, or another government unit and was not known at the time the adopted budget was prepared
- Property taxes are received in an amount greater than the amount estimated at the time the budget was adopted and the differences in resources will significantly affect the level of service your local government can provide
- When the estimated expenditures in the supplemental budget are 10 percent or less than the expenditures of the annual or biennial budget fund being adjusted, the governing body may adopt the supplemental budget at one of its regular meetings. Fund expenditures do not include unappropriated ending fund balance, inter-fund transfers, or contingency amounts.

## BUDGET DEVELOPMENT PROCESS

The District's Budget Committee plays a key role in the development and approval of the budget. The Budget Committee is composed of the seven elected School Board members and an equal number of citizen members appointed by the Board. As part of the budget review and approval process, the Budget Committee holds public meetings at which citizens of the community are invited to give testimony on the Proposed Budget before it is approved by the Committee. Once the Budget Committee approves the Proposed Budget, the budget is designated as the Approved Budget. The Approved Budget is forwarded to the School Board for final approval as the Adopted Budget.

The budget process begins in late fall. The District's fiscal department prepares estimated revenue scenarios for the budget year. The Superintendent works with district leadership as a team to prepare a framework of program additions, deletions and changes prioritizing each. Program modifications are dependent on the forecasted revenue scenarios. This process is conducted as a means of maintaining budget integrity and transparency, and assessing budget needs for the next year. The process helps to identify areas in the budget where efficiencies and savings can be found; reduces the number of transfers made between program budgets; and asks staff to examine their budgets and align the dollars where the spending occurs. Each General Fund program budget is reviewed by the responsible staff administrator.

Concurrently, the District's fiscal department develops "Service Level" budgets for each program. In the budget process, this refers to the funding that will be needed to provide the same level of service the following year, taking into account increases for salaries, benefits, associated payroll costs and inflation costs for goods and services and growth.

In times of increased state funding, some programs may receive added funds due to district program needs, increased student population or facilities. These are called "growth" packages. The fiscal department develops calculations to fund these needs. Requests for new funding and changes to current program are determined at the Cabinet level. If revenue projections indicate that additional resources will be available, the Superintendent and Cabinet may develop additional spending recommendations based on criteria consistent with the District's Mission and Vision

Cabinet will develop recommendations for reducing the budget only when there is a shortfall of available resources.

All other funds are reviewed in basically the same manner as the General Fund programs. The budget compilation for other funds is generally less complicated and controversial than the General Fund budget in that they don't represent the operational funding for the District. One fund that most often receives the same level of scrutiny is the Bond Capital Projects Fund.

When the District has sold General Obligation Bonds, the budget for the Bond Capital Projects Fund to spend the proceeds is under continual review. It consists of spending for major capital construction and major renovations and repairs. Its timeline is based on how long a capital construction project may last. For example building a new school takes longer than one fiscal year; however, the budget is prepared for one fiscal year. District Operations works closely with District's fiscal department to develop this budget. Proceeds for this fund for construction come from the sale of general obligation bonds and earnings from temporary investments. General Obligation bond funds issued prior to 2011 generally may only be used for the acquisition and construction of District school facilities. Proceeds from bonds issued subsequently may be used to purchase land and other assets having a useful life of more than one year associated with major capital construction. All bond projects are reviewed and approved by the School Board before the District undertakes them.

With information gathered and approval by cabinet, the District's fiscal office prepares the District's Proposed Budget for the Superintendent to submit to the District Budget Committee for review, possible revision and ultimately approval. The Superintendent will present his budget message with the Proposed Budget to the Budget Committee. The Budget Committee will hold public meetings to receive testimony on the Proposed Budget and to approve a budget and property taxes for the School Board.

Following approval of a budget, the School Board will hold a public hearing on the budget. The purpose of this hearing is to provide the citizens of the community an opportunity to give testimony on the budget approved by the Budget Committee before it is adopted by the School Board. Upon School Board approval, the Approved Budget, as adjusted, will become the District's Adopted Budget.

See the following page for the District's budget timeline.

## BUDGET ADMINISTRATION AND MANAGEMENT

The District's Fiscal Department monitors the budget and manages it under Oregon Budget Law, specifically Oregon Revised Statute 294, and utilizes the guidance of the Oregon Department of Revenue and the Oregon Local Budgeting Manual.

Departments monitor their budget monthly to ensure that overspending is not occurring.

## FUNDS AND CLASSIFICATION OF REVENUE AND EXPENDITURES

The District utilizes the accounting structure promulgated by the Oregon Department of Education which is similar to those used by other state and local governmental units.

The fund types that the district uses are categorized as follows:

### **Governmental Funds**

- 100 General Fund
- 200 Special Revenue Funds
- 300 Debt Service Funds
- 400 Capital Project Funds

### **Proprietary Funds**

- 600 Internal Service Funds

### **Fiduciary Funds**

- 700 Trust and Agency Funds

The District has the following specific funds:

**100 - General Fund:** This is the primary operating fund of the District. Financial transactions are recorded in this fund that relate to all activities for which specific types of funds are not required. The General Fund is unassigned. (Governmental)

**200-299 - Special Revenue Funds:** These are for dedicated sources of revenue such as grants and fee related funds. District funds in this category include ASB (student activity) accounts, food service, community service funds, specific state, federal and local grants, and other funds designated for special purposes by the District. These funds are considered restricted, committed or assigned. (Governmental)

**300-399 - Debt Service Funds:** These funds are dedicated to the pay-down of District Debt. They include a fund for General Obligation Bond Debt and for the PERS Bond Debt. These funds are categorized both as restricted and assigned for future use. (Governmental)

**400-499 - Capital Project Funds:** These funds are dedicated to acquisition, construction and improvements of real property (generally buildings and their components and land). The funds include a fund for grant and energy conservation funding received from PGE to be utilized for approved energy conservation projects and a fund for Construction Excise Tax received. The District also tracks General

Obligation Funds when available as they are used for specific construction projects. These funds are considered restricted or assigned funds. (Governmental)

**600-699 - Internal Service Funds:** Internal Service Funds are utilized for charges to other areas of the District. The District has a risk management fund for its self-insured programs. This funding is restricted. (Proprietary)

**700-799 - Fiduciary Funds:** The District has two basic funds in this category: one for its Agency Accounts: two District Sponsored Charter Schools with district employees (OCSLA and CAIS) which the District acts as a fiduciary agent for, and other funds for scholarships and small memorial funds and trusts. This funding is restricted. (Fiduciary)

Governmental Funds are classified based on the relative strength of the constraints that control how the specific amounts can be spent. Classifications for other funds are also shown above.

Definitions of the classifications are as follows:

- ***Nonspendable*** fund balance includes amounts that are not in a spendable form or are legally or contractually required to be maintained intact.
- ***Restricted*** fund balance includes amounts that can be spent only for the specific purposes stipulated by external resource providers constitutionally, or through enabling legislation. Effectively, restrictions may be changed or lifted only with the consent of resource providers. The restrictions are constraints placed on the use of the resources, externally imposed by creditors, grantors, contributors, laws and regulations of the state, federal government, or other governments or may be imposed by law through constitutional provisions or enabling legislation.
- ***Committed*** fund balance includes amounts that can be used only for the specific purpose determined by a formal action of the government's highest level of decision-making authority, the District's School Board through a School Board Resolution. The committed amounts cannot be used for any other purpose unless the School Board removes or changes the specified use by passing another resolution to uncommit the amounts or utilize them for another purpose.
- ***Assigned*** fund balance comprises amounts intended to be used by the District for specific purposes, but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the amount that is not restricted or committed. Assigned amounts represent intended uses established by the School Board, by the Superintendent, by the Chief Operations Officer, or by the Chief Financial Officer whose authority was granted by an annual resolution granting fiscal authority for 2017-18 by the School Board.
- ***Unassigned*** fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. Unassigned amounts are technically available for any purpose. Positive unassigned amounts will be reported only in the General Fund. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

## **Revenues and Expenditures**

The two categories of transactions which are budgeted in these funds are Revenues and Expenditures.

In the budget, the District is required by state law to show **revenues** by the following sources (some examples are given for each):

- 1000** - Local Sources- Property taxes, tuition, investment earnings, extracurricular activities
- 2000** - Intermediate Sources- County School Fund, Education Service District, in lieu of taxes
- 3000** - State Sources- State School Fund (SSF), Common School Fund, other Unrestricted Grants in Aid
- 4000** - Federal Sources- Unrestricted federal revenue direct from the federal government or through the state
- 5000** - Other Sources- Long term debt financing sources, interfund transfers, beginning fund balance

In the budget, the District is required by state law to show **expenditures** by the following functions within which are sub functions: (The School Board appropriates the budget based on these functions.)

- 1000** – Instruction- as related to instruction: K-12, special education, talented and gifted, federal Title programs, alternative programs
- 2000** - Support Services- as related to support of instruction: support services students, instructional staff, administration
- 3000** - Enterprise and Community Services- food services, community recreation services
- 4000** – Facilities Acquisition and Construction- service area direction, site acquisition, building acquisition, other construction services
- 5000** - Other Uses- Debt Service, fund transfers
- 6000** – Contingency- Operating contingency
- 7000** - Unappropriated Ending Fund Balance- reserve, unreserved fund balance

The District's budget breaks out expenses by Object as proscribed by the Oregon Department of Education. The objects are as follows:

- 100** - Salaries
- 200** - Associated Payroll Costs
- 300** - Purchased Services
- 400** - Supplies and Materials
- 500** - Capital Outlay
- 600** - Other Objects
- 700** - Transfers
- 800** - Other Uses of Funds

For more information regarding accounting for the budget, the "Program Budgeting and Accounting Manual" may be referenced on the Oregon Department of Education website.
