Attendance sheet was sent around. Lori Medlin stood in for Gail as safety committee chair for this meeting.

**Accidents/Incidents**
Paula Jones with SAIF was our guest speaker today. She reviewed the accidents and incidents for Oregon City School District. We are now at 22 claims. These claims have kept employees from working their normal job duties for 120 days combined. **41% of the claims are caused by a slip, trip or fall.**

**Safety Training**
The committee participated in various safety-training exercises. The first was to make them away of how visible they are to vehicles when it is dark outside, and other safety tips when they are pedestrians. Since much of our year is dark in the morning with parents dropping off students, this was valuable information to have. The committee also practices strengthen and lengthen exercises that are valuable to any employee. These exercises improve core strength and muscle tone if they are done regularly.

**Safety Related Issues**
- Quarterly safety inspections are due in April. Please make sure to look for trip and slip hazards!!
- Keep a look out for rugs with curled edges, boxes being used as door stops, food or beverage spills and more! All of us need to look out for these dangers as they could cause the next person behind you to fall and have serious injury.
- Reminder to walk through the building with your custodian – two sets of eyes are better than one!

**Safety Suggestions**
No safety suggestions were turned in.

The next safety committee meeting will be **Thursday, May 21, 2015, at 8:00 am in the Admin Board Room.**

Meeting adjourned at 8:40 am.
