OREGON CITY SCHOOL DISTRICT #62
SAFETY COMMITTEE MEETING MINUTES

DATE: 2/19/09  TIME: 8:00 AM  PLACE: Jackson Rm 17.

Attendance sheet was pass around the room.

Safety training covered what to expect during an OSHA inspection. The district received a letter stating we are at a higher risk for an OSHA inspection this year so it’s very important the building staff is aware of what will happen. Gail typed up the same information and will post it on the safety page on the OCSD website at: www.orecity.k12.or.us/departments/facilities_services/safety

The committee discussed fire/security alarm calls and safety procedures for after hour alarm calls. Classified employees on call list automatically receive a two-hour call back time. The fire department is now charging for false alarms, and the police department charges after the first false alarm. Mike reminded the committee to inform staff how important it is to double check that doors and windows are closed and locked and that after school or weekend activities need to be responsible about that as well to keep the district from accruing additional costs.

Gail informed the committee that the hand sanitizer discussion would be tabled due to the pending budget cuts.

No Safety Suggestions were received.

The next meeting is scheduled for March 12, 2009, 8:00 AM - Jackson Campus Room 17.
